PROFILE

Bachelor of Computer Science, Lampung University. Experienced as a web developer, system developer, lecturer assistant, and research assistant. Comfortable developing web applications with PHP (Laravel, CodeIgniter 3), Python (Odoo, Ren'Py), and Java (Android Studio), and managing SQL databases. Focused on building structured, well-tested, and easy-to-use web applications and educational games.

EDUCATION

Bachelor of Computer Science (S.Kom.), Lampung University Sep 2020 - Feb 2026

GPA 3.71/4.00 · Bandar Lampung, Indonesia

- Thesis: Developing a Visual Novel Game with the GDLC Method (Case Study on Plane Analytic Geometry Material).

EXPERIENCE

Research Assistant, Lampung University Jan 2024 - Feb 2026

Bandar Lampung, Indonesia

- Developed an educational Visual Novel game about Plane Analytic Geometry from start to finish using the Ren'Py framework.
- Applied the Game Development Life Cycle (GDLC) methodology so every production stage ran in a structured way and met its target.
- Designed and executed application testing through Alpha Testing (internal functionality) and Beta Testing (user experience).
- Wrote the final research report, which was defended as the official research document.

System Developer Intern, PT. Tunas Dwipa Matra (TDM) Feb 2023 - Jul 2023

Bandar Lampung, Indonesia

- Developed APIs in the mobile app to connect user-entered data with the system.
- Designed and fixed broken web system interfaces.
- Optimized API and database functions so queries run more efficiently.

Web Developer Intern, SMA Al Kautsar Dec 2022 - Jan 2023

Bandar Lampung, Indonesia

- Designed and developed the school website using the CodeIgniter 3 framework.
- Collected alumni data, school history, and activity documentation as website content.

Lecturer Assistant, Lampung University Aug 2021 - Jun 2023

Bandar Lampung, Indonesia

- Carried out teaching sessions and prepared learning modules.
- Helped students with their studies and with using laboratory equipment.
- Worked with the department on grading and distributing student grades.
- Courses taught: Basic Mathematics, Discrete Mathematics, Data Communication and Computer Networks, and Artificial Intelligence.

ORGANIZATIONS

Head of Division, Lembaga Pers Mahasiswa Natural FMIPA Unila Jan 2022 - Dec 2023

Bandar Lampung, Indonesia

- Designed and ran the member regeneration program, including evaluating recruitment, mentoring, and member quality development (Cadre Development).
- Managed the organization's digital content for communication and activity documentation (Multimedia).

TRAINING CERTIFICATES

Java Foundations, Oracle Academy Aug 2021 - Jan 2022

Award of Course Completion

- Completed all coursework in the Java Foundations program, covering the basics of object-oriented programming, class structure, inheritance, and exception handling.

English Conversation Club (ECC), UPT Bahasa Lampung University Aug 1-23, 2022

32 hours · Online

- Attended English training for Lampung University students focused on conversation and oral communication skills.
